Objective

I am a self taught full-stack web developer with a over a year experience. I currently work as a freelance web dev, helping individuals and small companies/businesses build their websites.

I use the MERN (MongoDB, Express, React, NodeJS) stack as a full-stack web developer, along with HTML5, CSS3, JavaScript, etc. With these technologies, I can create a wide range of applications and websites tailored to your specifications and needs.

I have a passion for learning things and applying my knowledge to solve challenging tasks.

Programming Skills

- **Languages:** JavaScript, ES6, JQuery, HTML, CSS, Python
- **Frameworks/Technology:** Git, GitHub, React, Heroku, Bootstrap
- **Software:** Postman, VS Code, Chrome DevTools
